

Module	PIM
Login	Chrome 138, Windows 11
Tested by	Artur Piradyan
Objective	To verify that the PIM (Personnel Information Management) module in OrangeHRM correctly allows users to:
	Add new employees
	Edit employee information
	Search for employees
	Delete employee records
Scope of testing	In Scope:
	Adding a new employee with valid/invalid data
	Editing existing employee details
	Searching by employee name or ID
	Deleting employee records
	Out of Scope:
	Employee self-service functionality
	API-level employee data manipulation
Test Strategy	Approach: Manual functional testing through web UI
	Test Data: Dummy employee names, IDs, departments
	Tools: Browser, Excel for test cases, PDF for documentation

Entry Criteria	Admin user can log in successfully
	PIM module is accessible from the Dashboard
	Add/Edit/Delete functions are visible
Exit Criteria	All test cases executed (PASS/FAIL marked)
	All workflows tested (create, update, delete)
	No critical bugs exist, or bug-free in simulation
Deliverables	Test Plan (this document), Test Cases Document (for PIM), Execution Report, Bug Report
